

# Westleton Village Hall

*Registered Charity Number 1026353*

To the People of Westleton  
From Westleton Village Hall Committee  
28 June 2008

We wanted tell you how far we have got with the projects to install an accessible lavatory and upgrade the heating and insulation in the hall.

Suffolk Coastal District Council has granted listed building consent, with one proviso. They want to ensure that the SlimLite double glazing units are satisfactory before they agree to us installing them. Paul Holmes has ordered a single unit which he will install on an experimental basis. We will then get the SCDC Planning and Listed Building people to visit us to see if they are happy.

We have costed the projects @  
Accessible Lavatory = £24,936  
Insulation and Heating = £29,976  
**Total = £54,912**

We have applied to the following external bodies for financial support for these projects;

E-On Source Fund

Garfield Western Foundation

Suffolk Environments Trust (for Landfill Tax Credit Scheme)

Simon Gibson Charitable Trust

Adnams Charity

British Energy (Sizewell A Site - PBO Funding Stream)

Suffolk Foundation. Suffolk Foundation requires an independent referee, Dr Sam Newton has agreed to do this for us.

Our friends in the Westleton Women's Institute are, as usual, being very helpful. They have applied to Yorkshire Tea for money to purchase the hand driers in the accessible lavatory. They have also offered to donate the profits from their 90<sup>th</sup> Birthday book.

So please keep your collective fingers crossed and please buy lots of copies of the WI book.
