

Sandlings Safer Cycling Campaign (SSCC)

We aim to improve cycling safely on local roads and to set up off road cycling routes along the coast. Keen supporters are needed to help with lobbying and local authorities for funds, etc. and also to enable well signed cycle paths to be created, linking our parishes for safer cycling for local people and school children. We are currently working on a circular cycling route between Aldeburgh and Sizewell via Thorpeness and also on opening up cycle paths focused on Sizewell Power Station. In this way we hope to encourage more people of all ages to cycle to and from work.

We think the time for our campaign is right and if you feel strongly and would like to make our roads safer for cyclists please ring to find out more about us and for membership forms please contact us at our email address, sandlingssafercycling@yahoo.co.uk or

Membership Secretary / Treasurer Jim Richards at 01728 453746
