Heating and Insulation

Installation of Double Glazed Window Units

Paul Holmes has been looking through the booking schedule for the hall during December and January. He is confident that he can do the installation of the windows on the days when the hall is unused. Paul will be working to the schedule attached. The sessions in **RED** are sessions for which Paul must have and will have priority (he may not use them all but they must be available for him). I do not believe he will need or want to work on the weekends and in the evenings (he does have a private life) but I think we must make them available to him if he wants to work during those times.

There are three days I had overlooked in the earlier versions of the schedule - the WEA sessions on 14, 21 and 28 January. I hope this doesn't upset Paul's calculations. **Paul, let me know if there is a problem.**

We hope we can get this work done without interfering with your use of the hall. But we are all familiar with Sod's Law, *if nothing can possible go wrong, something certainly will.*

So if there are problems please accept our apologies in advance and we hope you will bear with us. You will have a better village hall at the end of this project.

Can you all check through this schedule and let me know of any difficulties as soon as you can.

Thank you

Replacement of Heaters

So far we have £1,000 available towards the £12,479.88 we need (we received a grant of £1,000 from the Ganzoni Charitable Trust). So we have a fair way to go yet. We have a number of bids still pending; if enough of them are generous we may get the money we need. So don't uncross your fingers yet.

John Bebbington
