

## Suffolk Coastal Local Strategic partnership - access to services mapping August 2011.

Progress indicator:

-  = Good progress towards achieving the target
-  = Trend generally satisfactory
-  = Concern about progress

Approach to service delivery	Taking people to the service		Taking the service to people		People accessing the services themselves from home or in local community	
Specific delivery mode	Provide transport	Provide a mobile facility	Deliver a service in the Community	Promote community self help	Deliver service using new technology	
Relevant LSP projects and initiatives for 2011/12						
Access to services:						
Increase the number of people using community transport in the evening.						
More areas covered by community transport schemes						
Work with employers and passenger transport to develop travel plans						
Carry out an audit of mobile services						
Work with IT and service providers to increase service delivery in rural areas (Broadband)						
Climate change and the environment:						
Share the case studies developed as a result of the LSP survey						
Provide ongoing support to the Environmental Business Advice service for small/medium sized organisations and businesses						
Engage individuals and communities in renewable technologies, energy/water efficiency, carbon footprinting, climate adaptation, community group dynamics and resilience planning.						
Partners to engage communities through existing forums, such as the Greenprint Forum, to identify/clarify current and ongoing support needs within communities to enable them (with others) to plan effective adaptation, increase resilience, support and enhance wildlife, and reduce use of natural resources.						
Develop new approaches and proactively engage and support shared learning on community action through forums and events organised on behalf of the Greenprint Forum						
Strong supportive communities:						
Continuation of the VCS Funding and Development Service provided in the district						
Community Led Planning program to promote inclusive communities and raise the quality of life for Suffolk coastal residents.						
Working with churches and faith groups to tap into community resources and heritage opportunities promoting access to services						
ChangeMaker program to recruit and support 100 volunteers in Coastal to give them the skills to take on volunteering roles and/or be community						

champions in the Big Society					
Increase volunteering opportunities in Suffolk Coastal and promote volunteering for targeted parts of the sector					
Offer support and training to licensees/Town Pastors to support partners to develop initiatives for young people that promote drug and alcohol awareness.					
Delivery of positive activities/engagement for young people linked to Antisocial behaviour					
Commissioning of the Family Intervention Project within Suffolk Coastal					
Retain a local Domestic Abuse / VAWG Forum for the Suffolk Coastal District					
<b>Economy skills and enterprise</b>					
Improve links between businesses, employers, education providers and young people through workshops for presentation skills for young people, presentation skills for employers, and employer engagement events including 'Question Time'					
Unemployed people to receive employability skills training and additional learners to receive employability skills					
Young people to receive enterprise training through EastFeast model					
Support local businesses to collaborate on initiatives that bring about increased economic vitality.					
<b>Healthier lives for all</b>					
Partnership working to promote home heating and insulation grants including loft clearance scheme					
Improved access to information, services, support, education and training to all areas but especially rural					
Work with the Felixstowe Homeless Young Peoples Project and The Leydens intergeneration project, Felixstowe					
Maintain and expand opportunities for physical activity to increase well being and promote independence. (Stepping Out, Fit Villages, Community Exercise etc)					
<b>Young people</b>					
Promotion of the Coastal Potato website to ensure it contains relevant and up-to-date details of activities across the district					
Enable the Go With the Flow Youth Bus to access 8 different villages across the year					
Work with the Community Safety Partnership to enable activities to be planned for areas where young people are known to cause local residents anxiety around their behaviour.					
Engage with local young people to provide information to enable informed decisions to be made					
Enable CATS to provide appropriate transport for young people to access training opportunities					
Deliver the brokerage and DRT scheme to enable young people to move around the district Independently
